

The most efficient WiFi designed for hotels

NetOnTV helps you to improve your guest's satisfaction, getting rid of the complaints about your hotel's WiFi service and the increase of your digital reputation, by allowing you to offer a guaranteed WiFi access in each and every one of your hotel rooms through you existing TV wiring.

WHY DOES YOUR HOTEL ROOMS NEED TO INCORPORATE NETONTV?

Your customers consider that the WiFi access service is basic and that it must reach the standards of the rest of your accommodation offer.

Besides the common areas, the best solution is one that provides a service from within each room in an individual way as it is already being done with the TV, the phone, the minibar, etc.

Save money from expensive and complicated works and installations, making the best of your current resources: the TV cable system of your hotel.

Don't miss the opportunity to obtain and process the contact data that your customers will provide you in exchange for the access to your WiFi net.

HOW DOES NETONTV WORKS?

NetOnTV is a system that allows you to use your hotel's **existing TV wiring** to bring an individual WiFi connection **to every room**, without the need of complicated works or installations.

NetOnTV also includes a powerful **control tool** that allows you to safely manage the access of all your customers to the net, also allowing you to establish **different kinds of services** (free, temporary, paid, etc.). It also allows you to integrate the high density access solutions that you already have, or are planning to install, in the common areas.

HOW DOES NETONTV CAN HELP YOU TO GET THESE RESULTS?

NetOnTV will allow you to have a guaranteed WiFi access in each and every one of your hotel's rooms, which will be perceived by the customers as an improvement over your competition. However, the cost for you would be even less than that of other solutions that will not provide you the same level of satisfaction for your customers.

NetOnTV can become your hotel or chain's **best loyalty program**. Customers will be willing to give you their verified contact data in exchange of a free access to you WiFi service. Obtain and process those data for your **Marketing** campaigns.

NetOnTV allows you to make your investment profitable by enabling new operation services on the WiFi net (maintenance staff, housekeepers, etc.)

NetOnTV is **minimum investment, maximum benefit**.

WHAT RESULTS AND BENEFITS CAN YOU GET FROM NETONTV?

NetOnTV allows you to get **rid off the complaints** about your hotel's WiFi service, also increasing your establishment's **digital reputation**.

When you have **NetOnTV** you can keep and even increase your accommodation price offers, without the fear of losing clients.

NetOnTV can configure a customized service for your clients, being able to even enable one use paid services that can result in new incomes for your hotel (Premium WiFi, IPTV, etc.)
